MIDHUN M

Senior UI/UX & Product Designer | AI-Assisted Design, Vibe Coding & Digital Experiences

Alappuzha, Kerala, India • +91 8921089470 • **mnairmidhun@gmail.com** • **LinkedIn** • **Behance** • **Dribbble**

PROFESSIONAL SUMMARY

Multidisciplinary Senior UI/UX & Product Designer with 10+ years of professional experience delivering user-centered digital products, responsive web platforms, and interactive experiences across fintech, SaaS, and hospitality. Proven track record of measurable product impact: designed an online payment platform used by 500K+ users across Europe, cut customer drop-offs by 40% through hospitality platform UX redesign, and scaled design systems that reduced frontend development time by 25%.

Experienced across the end-to-end product lifecycle: user research, user interviews, usability testing, persona development, user journeys, wireframing, high-fidelity UI design, and interactive prototyping. Evolved into a modern AI-assisted designer with hands-on experience in AI-assisted website development, vibe coding, and design-to-code workflows—leveraging natural-language prompts and AI coding agents to rapidly translate design concepts into functional, responsive web experiences. Experienced in collaborating closely with frontend engineers, clients, and executive leadership to deliver intuitive, accessible, WCAG-aligned digital solutions from idea to production.

CORE SKILLS

AI-Assisted Design & Development: AI-Assisted UI/UX Design, AI-Assisted Website Development, AI Design-to-Code, Vibe Coding, AI-Assisted Rapid Prototyping, AI-Assisted Web Development, Prompt-Based UI Generation, AI-Assisted Visual Creation, AI-Assisted Image Generation, AI-Assisted Video Creation, AI-Assisted Content Creation, AI Creative Workflows, AI-Powered Design Exploration

Product & UX Design: Product Design, UI/UX Design, User Experience Design, User Interface Design, User Research, User Interviews, Usability Testing, User Personas, Journey Mapping, User Flows, Wireframing, Prototyping, Information Architecture, UX Strategy, Design Thinking, Accessibility, Inclusive Design

Design Systems & Visual Design: Design Systems, Component Libraries, Design Tokens, Style Guides, Design Documentation, Responsive Design, Mobile-First Design, Cross-Platform Design, Visual Design, Graphic Design, Branding, Digital Experiences, Marketing Creatives, High-Fidelity UI Design, Presentation Design

Web & Digital: Website Design, Design-to-Code Workflows, Vibe Coding, Responsive Web Design, HTML5, CSS3, JavaScript, SEO-Aware Design, Cross-Browser Compatibility, Performance Optimization, Developer Handoff

TOOLS & TECHNOLOGIES

Design: Figma, Sketch, InVision, Adobe Photoshop, Adobe Illustrator, Adobe InDesign

Web: HTML5, CSS3, JavaScript

AI & DIGITAL CREATION TOOLS

Primary Tools: Antigravity, Claude, Cursor, ChatGPT, Google Flow, Google Stitch

AI Tools & Ecosystem Exposure: Figma Make, v0, Lovable, Framer, Relume, Uizard, Adobe Firefly, Midjourney, Recraft, Anima

PROFESSIONAL EXPERIENCE

Techgentsia Software Technologies — UI, UX, Product Designer — 2020 – Present

- Lead end-to-end UI/UX and product design across web and mobile platforms, applying user-centered methodologies from initial discovery through engineering handoff.
- Conduct qualitative user research, user interviews, surveys, and usability testing to extract behavioral insights and validate product decisions.
- Develop comprehensive user personas, journey maps, and user flows to align cross-functional engineering teams and stakeholders around user priorities.
- Build, govern, and scale design systems and component libraries, standardizing UI patterns and reducing frontend development time by 25%.
- Integrate AI-assisted workflows into UI/UX ideation, website development, rapid prototyping, design-to-code, and visual production to accelerate concept-to-delivery cycles.
- Utilize AI coding agents and vibe-coding workflows to rapidly prototype, build, and test responsive digital layouts, UI components, and functional web experiences.
- Prepare rigorous design documentation, design tokens, and inspect-ready specifications to streamline frontend developer collaboration and support WCAG-aligned accessibility requirements.
- Formulate and present design concepts, interactive prototypes, and UX rationale directly to clients, product managers, and executive leadership.

PROFESSIONAL EXPERIENCE (CONTINUED)

SASP — Web Designer **2019 – 2020**

- Designed and delivered responsive, visually compelling, and user-friendly websites aligned with client brand identity and technical requirements.
- Created wireframes, high-fidelity mockups, and interactive prototypes for client presentation, feedback, and formal approval.
- Managed website project timelines, deliverables, and asset pipelines to ensure timely completion within project scopes and budgets.
- Optimized website performance, page load speed, cross-browser compatibility, and multi-device responsive viewports.
- Managed website content updates, technical maintenance, CMS administration, and troubleshooting for live client websites.

Opesmount Technologies — UI / UX Designer **2016 – 2019**

- Managed and executed UI/UX design deliverables across multiple concurrent digital projects, prioritizing tasks to meet delivery milestones.
- Championed user-centered design principles and educated clients and stakeholders on the value and return on investment of UX design.
- Developed and maintained multi-brand design systems, component libraries, and style guides to ensure visual and functional consistency across products.
- Collaborated closely with software developers and product managers to ensure design solutions were technically feasible and aligned with commercial goals.

Rendeztech — Junior Webdesigner **2012 – 2015**

- Designed structured, aesthetic web page layouts consistent with brand guidelines, design briefs, and client specifications.
- Optimized website graphics and interface elements for Search Engine Optimization (SEO) and improved user experience.
- Conducted cross-browser compatibility testing, responsive viewport validation, and functional troubleshooting to resolve usability issues.
- Communicated effectively with team members and clients to ensure project milestones were achieved on schedule.

SELECTED ACHIEVEMENTS

- **European Payment Platform:** Designed an online payment platform used by 500K+ users across Europe, conceptualizing the UI/UX architecture starting from the initial wireframe stage.
- **Hospitality UX Optimization:** Reduced customer drop-offs by 40% through UX improvements and ordering flow redesign for a hotel's online menu platform.
- **Design System Development:** Developed and scaled a design system and reusable component library that reduced frontend development time by 25%.
- **European Client Commendation:** Received formal recognition from a European client for conceptualizing and designing the UI/UX of an online payment application, starting from the initial wireframe stage, delivering an intuitive and visually appealing app.
- **CEO Recognition (Hospitality Platform):** Received special recognition from the CEO of a hotel for developing an innovative online menu platform for the establishment, resulting in notable rewards.
- **Duolingo English Proficiency Test:** Achieved a Duolingo English proficiency score of 110.

EDUCATION

Bachelor of Commerce (B.Com) — M.G University **2016**

Diploma in Web Designing — G-Tech **2013**

Higher Secondary Education — Technical Higher Secondary School, Cherthala **2012**

CERTIFICATIONS

Foundations of UX Design by Google — Google UX Design Professional Certificate COMPLETED

Principles of UX/UI Design — Meta PROCESSING

Developing Innovative Ideas for Product Leaders PROCESSING
